Methodology Used in Necinstructionmanual

In terms of methodology, Necinstructionmanual employs a robust approach to gather data and evaluate the information. The authors use mixed-methods techniques, relying on experiments to collect data from a selected group. The methodology section is designed to provide transparency regarding the research process,

ensuring that readers can evaluate the steps taken to gather and process the data. This approach ensures that the results of the research are trustworthy and based on a sound scientific method. The paper also discusses the strengths and limitations of the methodology, offering critical insights on the effectiveness of the chosen approach in addressing the research questions. In addition, the methodology is framed to ensure that any future research in this area can build upon the current work.
