User feedback and FAQs are also integrated throughout Extinction, creating a dialogue-based approach. Instead of reading like a monologue, the manual echoes user voices, which makes it feel more personal. There are even callouts and side-notes based on troubleshooting logs, giving the impression that Extinction is not just written *for* users, but *with* them in mind. It's this layer of interaction that turns a static document into a user-aligned tool.

Themes in Extinction are bold, ranging from identity and loss, to the more existential realms of time. The author respects the reader's intelligence, allowing interpretations to bloom organically. Extinction provokes discussion—not by imposing, but by posing. That's what makes it a timeless reflection: it stimulates thought and emotion.

The worldbuilding in it set in the real world—feels rich. The details, from histories to technologies, are all thoughtfully designed. It's the kind of setting where you forget the outside world, and that's a rare gift. Extinction doesn't just describe a place, it pulls you in. That's why readers often return it: because that world never fades.
